## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claim 1-21, 30 allowed.
2. The following is an examiner's statement of reasons for allowance:

In regard to claims 1-16, 30, the prior art does not suggest or disclose maintaining the seed temperature and source temperature constant through the entire growth period. Prior art cited (Schulze et al.) does not suggest this. In regard to claims 17-21, the prior art does not suggest a growth period with the same seed growth phase starting temperature and growth phase ending temperature. Likewise, the prior art does not suggest a growth period with the same source growth phase starting temperature and source growth phase ending temperature. Schulze et al. has a different source starting temperature and ending temperature during the growth interval (see Fig. 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
